## DEATH CAME IN EXPLOSION.

Ten Miners Killed and Three Fatally Injured in West Virginia Colliery.

DETROIT, Mich., Nov. 3.—E. P. Berry of this city, president of the West Virginia Coal Company, received a telegram at 10 o'clock today from N. O. Gray, manager of Phillips, W. Va. coal mine, saying that ten were killed and three fatally injured in an explosion. The mine, however, is damaged very slightly. Dynamite taken into the mine in too large quantities by a miner is believed to have exploded from the concussion from other shots and to have caused the accident.

## Postoffice Cannot Handle Business.

The postoffice of this city is now experiencing the liveliest times it has ever known. Despite the fact that the business of the past few days showed an increase of 20 per cent over that of the preceding year, the office is now so filled with matter as to be practically swamped. For this reason people may be able to get today and perhaps Monday, only first-class mail.

## ROBBERS LOOT AN OHIO BANK

Building Blown Out and Citizens Cowed by Masked Men.

Associated Press Dispatches by The Tribune's Special Leased Wire. CLEVELAND, O., Nov. 3.—The Farmers' and Merchants' Bank at Jackson Center was blown out today, and it is said \$7,000 was secured. Citizens aroused by the explosion poured into the streets only to be driven in by heavily armed and masked men who escaped on a hamlet over the Ohio Southern Railway.

## DEMOCRATS TRY TO STEAL ELECTION.

Fraudulent Registration in St. Louis Discovered by Republicans.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. LOUIS, Nov. 3.—Warrents have been issued for the arrest of 25 men charged with being registered fraudulently at different precincts in the down-town wards of the Twelfth Congressional District. This action was taken on information filed by Chairman John P. ... of the Twelfth Congressional District Republican Committee.

The committee sent registered letters to the homes as they appeared on the voters' list from rooming houses, taverns in the district, and from more than one thousand of these letters have been returned with the report of the office Department that the persons named do not live at the places shown in the registration list. On the strength of these reports warrants have been issued for the arrest of more than 25 persons, and 23 of the warrants have been issued.

## Prof. Welcker Dies at Berkeley Home.

William Thomas Welcker, professor emeritus of the University of California, died this morning at his home, 240 Bancroft way, at the age of 70 years. Deceased was a native of Athens, East Tennessee, and has been a resident of California for thirty-three years. For the last thirteen years he has been a resident of Berkeley.

He was a lawyer and educator by profession, but much preferred the latter, and as such is well known throughout the State. He was at one time State Superintendent of Public Instruction, and previous to his removal to Berkeley was a resident of Sacramento. He leaves a widow and three grown children, two sons and a daughter. Arrangements for the funeral will be announced later.

## THOUSANDS OF NEW YORK BUSINESS MEN MARCH FOR M'KINLEY

Magnificent Parade Reviewed By Roosevelt—Greatest Showing of the Campaign.

NEW YORK, Nov. 3.—In spite of a cold, drizzling rain and muddy streets throughout the four and one-half miles of the line of march, the parade today arranged by the Business Men's Republican and Sound Money Association and reviewed by Governor Theodore Roosevelt, the Republican candidate for Vice-President, was a remarkable demonstration.

The march was begun shortly before 10 o'clock, when Mr. Roosevelt, surrounded by a large escort, started up Broadway in an open limousine. Every block he was cheered by crowds that lined both sides of the street, and time after time he was compelled to rise in his carriage to respond to the salutes of those who had lined the route of march.

At Madison Square, where he took his place in the reviewing stand, he was given an enthusiastic reception, although those present were fewer than had been expected, owing doubtless to the bad weather. The first series of clubs to pass the stand were those organized in the dry goods trade and they were followed quickly by representatives of every line of trade in the city.

Although it was estimated that from 10,000 to 12,000 men passed the stand each hour, many of the clubs had not even had a chance of forming in line up to 3 P. M., and it was thought at that time that it would be after dark before all could reach Madison Square.

## BRYAN'S LAST DAY IN CHICAGO.

Tells What He Will Do if Elected President.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, Nov. 3.—William J. Bryan began the last day of the Democratic campaign at noon today. His numerous speeches of last night did not prevent him from being until long after midnight, and he did not arise today until 10 o'clock, beginning with a speech at noon at an informal dinner tendered him by the Troquois Club. Mr. Bryan will speak all afternoon in different parts of the city and suburbs, concluding at 5 o'clock this evening, when he will review the final Democratic parade of the campaign.

In his address before the Troquois Club Mr. Bryan said in part: "A man amounts to very little in this world except as he stands for some great principle. I know that whatever good will you manifest toward me is not as an individual, but merely toward me as the representative of a great party which stands upon the principles which you believe in. We cannot tell what the future is for any one or any nation. I have challenged the credentials of these men who have been going up and down the land pretending to tell us what this Nation's destiny is. I believe that no man is able to see the end from the beginning, but that God does not require that of any man. All that he requires of us is that we do our duty as we see it, and when we do our duty as we see it we are relieved from further responsibility."

WHAT HE WRITES. Miss Wampler—They say Mr. Longshore writes for the magazines. I wonder what he writes. Mr. Suropp—Oh, he writes "Pence" and me a sample copy. —Baltimore American.

## RIVER BOAT SINKS.

Associated Press Dispatches by The Tribune's Special Leased Wire. MEMPHIS, Tenn., Nov. 3.—The steamer Hill City, belonging to the Hill City Steamboat Company of St. Louis, and plying between St. Louis and New Orleans, struck a hidden obstruction in Tennessee chute, just below the city, early this morning, and sank. The water covers the lower deck, but the boat lies in a good position and can easily be raised.

The Hill City was en route to New Orleans and had a full cargo, thirty passengers and a crew of forty. All got safely ashore in yawls.

## LORD ROBERTS' PITIFUL PLEA.

Fears Welcome to His Troops Will Be Made a Drunken Orgy.

LONDON, Nov. 3.—Lord Roberts' name of crime. I have trusted to the words from Pretoria a striking appeal to his countrymen to refrain from turning the welcome of the homecoming troops into a drunken orgy. He expresses the sincere hope that the welcome will not take the form of treating to stimulants and thus lead to excesses that will tend to degrade those whom the nation delights to honor and lower the soldiers of the Queen in the eyes of the world, which has watched with undisguised admiration the grand work they have performed for their sovereign and country.

"I therefore beg earnestly," says Lord Roberts, "that the public will refrain from tempting my gallant comrades, but will rather aid them to uphold the splendid reputation they have won for the imperial army. I am proud to be able to record with the most absolute truth that the conduct of this army from first to last has been exemplary. Not a single case of serious crime has been brought to my notice; indeed, nothing deserving the name of crime. I have trusted to the men's own soldierly feeling and good sense, and they have borne themselves like heroes on the battlefield and like gentlemen on all other occasions."

"The most malicious falsehoods were spread by the authorities of the Transvaal of the brutality of Great Britain's soldiers, but the people were soon reassured that they had nothing to fear from the men in khaki, no matter how battered and war-stained their appearance."

## CHINESE MAKE A STUBBORN FIGHT.

Anglo-German Force Attacks Them in the Mountains.

Associated Press Dispatches by The Tribune's Special Leased Wire. LONDON, Nov. 3.—The Pall Mall Gazette this afternoon publishes a dispatch from Ichow, dated October 28, which says heavy fighting has occurred in the mountains on the Shan Si frontier.

An Anglo-German force of 1,500 men, commanded by Colonel Von Norman, stormed the Tching Kung pass. The Chinese occupied a strong position on the crest and stubbornly resisted. They poured a hot enfilading fire on the advance party of eighty Germans under Major von Forrester, but the British general cavalry and mounted sappers, dismounting sealed the heights, turned the enemy's flanks, and relieved the Germans.

## SPAIN SEETHING WITH DISCONTENT.

Carlism Revolt Likely to Be a Serious Affair.

Associated Press Dispatches by The Tribune's Special Leased Wire. VENICE, Nov. 3.—Don Carlos, the Spanish pretender, in the course of an interview had with him, declared that the present rising in Spain is contrary to his orders and will retard promoting his efforts to secure his rights.

## BLACK SHEEP OF OAKLAND FAMILY.

John Matthews is Arrested at San Jose for Theft.

A dispatch from San Jose says: "John Matthews, who is said to be the 'black sheep' of a rich and prominent Oakland family, is wanted by the police on a charge of petty larceny. For some time he has been taken from cars at the broad-gauge depot, and last night Robert Byers, the watchman, caught Matthews in the act. He succeeded in making his escape, but the watchman this morning swore to a complaint in Justice Wallace's court.

Matthews is a man of good education and is said to have a monthly allowance of \$150. He has been a heavy drinker, and while intoxicated is a delinquent. For these reasons Matthews' family sent him away from home and provided a monthly competence for him. For some time he has been in San Jose. Several times he has been caught carrying away articles not his own, but when caught he always pleaded larceny, and made restitution by paying for the goods. By this mode he has escaped prosecution."

## COLONEL IRISH ROASTS BRYAN.

Masterly Address at the Tabernacle Last Night.

Colonel John P. Irish, the representative of the Gold Democracy in its fight against Bryanism, delivered an eloquent address in the Tabernacle last evening. There was a large audience and much enthusiasm was displayed. At the outset Colonel Irish said: "I represent what is known as the Gold Democracy, or as I call them, the 'Bryans'." Then he continued: "When in 1896 the party went astray we refused to follow those who had abandoned the principles of Jefferson, Jackson and Cleveland. This year in every State north of Mason and Dixon's line we are, as in 1896, offering ourselves as a bridge over which our country may pass from peril to safety. In 1896 every member of the Republican party was committed to sound money, and abides by that faith now. The executive committee of the Sound Money League has secured a gold standard foundation for our Government, and has in view other financial measures which will assist still further in straightening out the tangles which have fastened since the middle of the Civil War.

"Four years ago Bryan said if he were beaten and the gold standard obtained the schools would be closed. That the people would be without clothes, that all prices would fall as surely as a stone falls that is cast into the air, that more mills would be closed, more men be thrown out of work, that the people would be despoiled, starvation and crime. 'Every man, woman and child in this Nation knows that Bryan's prophecies were false and foolish. Prices have risen, the schools are open, the number of new ones has doubled. Instead of more men out of work there are now more wage-earners better employed than in any other nation under the sun.

"We secured the adoption of the gold standard. What has occurred? That legislation makes every bond of the United States payable in gold coin, with every dollar of national debt refundable in bonds bearing 2 per cent and those bonds at a premium of 4 1/2 per cent in the money market of the world. The best public credit in the history of any nation from the days of the Assyrian. No nation has had a public credit that sells its 2 per cent bonds at a premium of 4 1/2 per cent.

"Bryan has said 'The gold standard shall endure only until I get the power to destroy it.' Let his followers ask themselves how they will be benefited by the destruction of the gold standard and the public credit? How are you going to gain by increasing the interest on the public debt? England at her best would not have been able to do better than to fund at 3 per cent. Now, during the last eight months, Germany has come to us to sell her bonds. England has sold \$20,000,000 in the United States and is today paying us interest—not us paying to her. Sweden has come to us for money. American capital has control of the great subway transportation system of London. American capital is building the railroads of Switzerland.

"We stand up close to these events that we may be excused for not cravering the magnificent significance of these affairs. But it is true that creditor nations are not so liable to panics, and when they do come feel them with less severity than debtor nations. During the panics of 1873, I, as an individual tradesman, did not feel the disaster because I was out of debt. So it is with nations.

"I want supporters of Mr. Bryan to tell how they have benefited by transforming this country into a debtor nation. But I warn you as patriotic Americans, do not do it unless you can benefit our country.

"On my personal responsibility I say that Mr. Bryan has never been able in a legitimate vocation to earn enough to provide for his own family. He never could do that, it is a sealed mystery to him how any man can succeed. So he is satisfied to style the great captains who have established our great industrial system as rascals and thieves."

"Now, this problem of expansion would never have been upon us if it had not been for Bryan's advocacy of the Treaty of Paris. If you support Bryan on the anti-imperialistic issue remember this, that if he wins the South, from which he expects 120 electoral votes, will never permit him to abandon the Philippines. The South to a man is in favor of expansion. Mr. Bryan is introducing the gold-brick and sawdust package into American politics. There will be no change until the American people have soberly and wisely solved this problem.

"And to talk about making an empire out of a republic. Free men, contented, happy and prosperous, never could make such a change. The boys of Rome paved the way for the Imperial Caesar. With their democratic cries of discontent, with their raising of class against class, with their destructive policies, they paved the way, first to chaos, confusion and civil strife—then Caesar marched in. That was imperialism.

"What, my good old Democratic friends, has the leadership of this quack and empiric from Nebraska cost the party? It has lost us (eighteen seats in the Senate of the United States). We have not a single Senator nor a Democratic Governor nor a Democratic Legislature in a Northern State, and seven seats in the Senate are filled by Republicans from the South of Mason and Dixon's line. This is the result of the vocal manifestation of a diseased ambition. I implore you Republicans to help us, so that when this man is beaten and buried we may have in this United States a constitutional party, both of which shall be working for the nation's happiness, differing only in their method of attaining that end."

## THE ART OF MANICURING.

The Whole Operation Made Plain So Any One May Perform It.

An expert describes as follows the whole process of manicuring, so that those who cannot pay regular visits to a professional may know how to perform this interesting operation for themselves. The finger tips must first be immersed for a few minutes in a bowl of hot water made from a pure violet soap. This is to soften the nail and the cuticle surrounding its base. This cuticle, or this, tough skin, is frequently allowed by those who neglect the dainty care of the hands and nails to grow up over the matrix and thus hide from view the pretty white half moon, or "lunula," which in all well kept nails is to be plainly discerned.

As soon as the skin has become nicely softened the fingers are taken out of the soap solution and gently dried with a soft towel. They are now ready for the operation of the cuticle knife. This must be used with the greatest delicacy, care being taken not to scratch the nail in any way. The point of the knife should be gently passed under the edge of the skin, loosening it from the nail. The superfluous membrane or cuticle should now be cut away with the cuticle scissors. These are made long and slender, with beautifully curved points. Ordinary scissors would not do the work properly.

It must be distinctly understood that this cutting of the cuticle is only necessary with neglected nails. Nails which receive proper and regular attention have the lunula well in view, and the skin at the base is not allowed to grow over it, being gently pushed back every day with an ivory presser. Whenever it is necessary to cut the cuticle it must be done with a skillful and delicate touch, and under no circumstances should blood be drawn, as in such a case irritation and much soreness would follow.

The nails themselves may now be nicely cut and trimmed with nail scissors. They should be cut to a pretty oval shape and may be finished off with a file to soften and level the edges. The beautifying process then commences by immersing the nails for a minute in any of the cleansing fluids or special preparations made for the purpose or by the use of a little lemon juice to free the nail from all stains and discolorations. Little orange wood sticks, sold in tiny bundles, are also used to apply the fluid under the corners of the nail, and these effectually eradicate ink, gardening or other stains, which are sometimes difficult to remove from the edges. Now rinse the nails in a little rosewater and commence the polishing.

The polisher, or rubber, has an ebony, ivory or polished wood handle and is composed of an oval pad covered with a piece of the chamcha leather. A little good nail powder is sprinkled over it, and the nails are rubbed briskly backward and forward until a brilliant polish is obtained. If it is desired to color nails which are not naturally pink, a little pink coloring paste may now be rubbed into them and the polishing renewed.

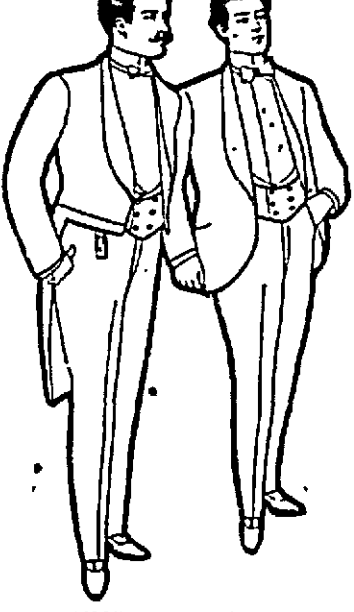

"To keep the nails in good condition they should be manicured twice a week, and once a day, after washing the hands, the thin membrane at their base should be gently pushed back with the ivory presser and the nails polished with the chamcha leather rubber.

Many persons, especially those of weak health, are troubled with thin, dry, brittle nails, which are constantly breaking or splitting and becoming jagged at the edges. A lemon kept on the washstand and used after washing is useful for remedying this state.

## Men's Styles.

There will be little change in evening dress style. According to the New York Tribune, in which the illustration occurs, the peaked lapel will be worn again, but young men will wear coats finished with the shawl roll. The velvet collar, which makes its appearance every year, will probably be seen again, but its advocates will have a hard time introducing it. The dress coat will have shoulders of medium width, built up just enough to give a square, rather than a round or drooping, effect at the top.

The waistcoat will be either single or double breasted when made of the

CORRECT EVENING DRESS. As the material as the coat and will have a low U shaped opening. When made of fancy material, the waistcoat must be double breasted. The trousers will be sharply, averaging 18 inches at the knee and 15 inches at the bottom. The Tuxedo, having the all silk shawl roll, will be more popular than the coat with the peaked lapel roll. The waistcoat for this coat is either a fancy black material or plain black.

SATURDAY, NOVEMBER 3, 1900.

The only question that remains to be solved is how large will McKinley's majority be?

The census returns show that Nebraska will lose a Congressman in the next apportionment. But the State has Bryan. Has the exchange been profitable?

The stock market remains as steady as a rock—in an extraordinary condition upon the eve of an election. That is pretty good proof that everyone is satisfied that the present administration will be continued as a result of next Tuesday's voting.

A vote for McKinley is a vote for upholding the honor of the stars and stripes. A vote for Bryan is a vote that will count in favor of his friend and correspondent, Aguinaldo. Where do you stand on such propositions?

Bryan has practically given up New York and is making a last ditch fight in Illinois, but the great Republican parade in Chicago shows that he will fare no better there than he did in 1896. The handwriting is on the wall.

Roosevelt promptly called Dick Croker's bluff about subverting the election result by violence at the polls. He serves notice in unmistakable terms that Democratic roughs will not be permitted to invade election booths and destroy the returns. Republicans are going to have a free ballot and a fair count if they have to fight for it. Croker will not be permitted to go belting the Union.

**GETTING RID OF BRYAN.**

From the utterances of the leaders of the Democracy who have remained in the background in this campaign or have come out openly in support of McKinley it is evident that Bryan is not the candidate of the Democracy party as it was organized and existed prior to the fusion of 1896. The fact of the matter is that Bryan forced himself upon the Kansas City convention with a populist and free silverite club. To have rejected him would have resulted in the defeat of the party anyhow, and to nominate him and thus rid the Democracy of the burden and clarify it of the issues of free silver and Populism was the evident motive that actuated the veteran party leaders in permitting Bryan to become the unopposed nominee. The Nebraska has been the veritable old man of the sea clinging to the back of the Democracy, and since he sprang from obscurity into the glare of prominence through the "crusade of gold" speech at Chicago he has been tolerated because of his strength and influence with the Populist element.

Cleveland, Olney, Dickinson and a hundred others who have been the recognized leaders of the Jeffersonian party are either opposed to Bryan or are according him faint-hearted support. They will undoubtedly be as well pleased over the re-election of McKinley as the most ardent administration supporter, for they recognize that with Bryan's second defeat the Democracy can be reorganized and placed upon a basis that will give it claim to popular support. With Bryan on its back there is no possibility of success. Its policies as enunciated by the Nebraska are a menace to the business, financial and industrial elements of the country and are more theoretical than practical. For these reasons it is apparent that the great mass of Democrats will this year cast their ballots for McKinley both from patriotic motives and through a desire to rid the party of Bryan and his political heresies and theories.

**OUR STAND IN CHINA.**

The imaginative correspondent is again at the task of predicting what the allies intend to do with China, and once more he has satisfactorily arranged, according to his own ideas, a plan of partition of the Empire. This sort of stuff reads well enough under big and alluring headlines, but it scarcely deserves serious consideration, for it almost wholly consists of the mental emanations of its writer.

In the first place, none of the powers desire to be burdened with Asiatic possessions in which such complicated business problems are involved as obtain in China. With an improvement of the existing conditions, through a continuance of the present lines, their opportunities would be greater and better than could possibly be the case if they had to bear the expenses of government in the Orient. A few ports of entry were merchant ships will have harbor and where warcraft can call for purposes of repair, will be about all the territorial spoils the interested powers will be apt to exact from the Chinese. The Mongolian nation is difficult to govern at best, and it is not population the nations are seeking but trade outlets for the products of their own citizens.

It is much preferable, therefore, for all concerned to preserve China intact rather than to divide it up among the powers, for it would be impossible to so dismember the empire as to satisfy those interested. There is no doubt that our government favors the preservation of the Confucian government and that Japan will stand with us, for she could not possibly be the gainer by the acquisition of territory on the mainland. Russia, of course, is inclined to enlarge her Asiatic possessions and that fact alone will have a tendency to array all the other governments against her. It is safe to assume, therefore, that China will remain intact and that all the allies will insist upon will be full indemnities for the outrages of the Boxers and such other assurances as will remove all possibility of a repetition of the recent movements against the representatives of civilization.

**WILLIAM MCKINLEY.**

The hour is at hand when the work of the present national campaign will culminate and the voter will cast the die that expresses which side he takes of the great issues that have been exploited so thoroughly during the past few months. It does not seem possible that he can hesitate as to what the decision should be.

President McKinley is entitled to the suffrage of every citizen in the land. His administration has been as able as any recorded in the pages of American history; he has faced and solved some of the greatest problems that have been presented to us since our inception as a nation; he has stood at the helm and safely guided the ship of state out of the breakers and shallows of adversity on to the broad high sea of prosperity—in short he has been all that a President of the United States should be, and has accomplished all that any statesman could have done. The four years of his administration mark one of the most prosperous chapters in the history of the republic, and this fact becomes the more noteworthy when it is remembered that when he entered the White House the country was in the midst of an industrial and commercial depression of so serious a nature that it seemed as if it might wreck our integrity as a nation. Bryan, taking advantage of this condition, was posing before the people as a latterday Moses who would lead them out of the wilderness and was promising everything under the sun, though he knew full well that he could not fulfill one-half of his pledges. It stands as a lasting monument to the intelligence and good judgment of the American people that they turned from the empty but highly-colored bubbles of the Nebraska's arguments and instead placed in power William McKinley, the candidate whose promises were few, but who inspired confidence by his record, his personality and his credentials as the representative of the great Republican party.

If McKinley was considered entitled to the Presidency four years ago, how much more so should he be now. He has more than kept the agreements and pledges he made when he stood before the people in 1896, for during the period of his incumbency the country has been brought face to face with unforeseen complications and dangers. McKinley rose to the occasion if ever a man did in the world. He met the issue with Spain by sending our fleets to both sides of the globe and forcing the haughty Don to his knees; he solved the Hawaiian problem in a manner satisfactory both to the residents of the islands and the American people, and in the complications in China into which we, in common with the other representatives of civilization, were forced, he has scored for America diplomatic victories no less great than those achieved at the point of the sword in Cuba and the Philippines. The Stars and Stripes are honored today the world over as they never were before as a result of McKinley's determined and unerring foreign policy and what American citizen should be willing to trail Old Glory in the dust as Bryan vain would do by lowering our standard in the Philippines and Porto Rico and thus signaling to the world that we do not feel competent to handle the fruits of victory we have won at the expense of the lives of so many brave American soldiers?

In war or in peace, as President or as citizen, in the councils of the nation or amidst the quiet, happy circle of his home—no matter where we find him, McKinley's life is as pure and as true as the policies he has nailed to the masthead, and every citizen who believes in upholding the honor of the flag and who wants to see continued the golden era of prosperity we are now enjoying should on Tuesday next cast his ballot for the soldier-statesman of Ohio—William McKinley, the standard-bearer of the Republican party.

**THE LOCAL REPUBLICAN TICKET.**

Alameda Republicans are fortunate in having a first-class local ticket this year. The nominees are all good men who are capable and well-known in the community. The general excellence of the judicial, legislative and supervisory ticket must commend itself to the voters of the county irrespective of party. All the nominees invite and their character and records justify support.

Of the judicial nominees it is hardly necessary to speak. The record made on the bench by Judges Ellsworth and Ogden is all the certificate of character they require. It is unblemished and unassailable.

Russ Lukens, the nominee for State Senator in the Twenty-seventh district, possesses all the qualifications to make a creditable and effective representative. He is young, able and popular, and has a wide acquaintance with men and affairs. He is a type of the vigorous young manhood of the party and truly represents the spirit which has made its principles enduring.

As to the legislative nominees a word in detail may not be out of place. John G. Mattos, the nominee in the Forty-sixth district, can be relied upon to serve his constituency faithfully and honestly. His long residence in the district has made him familiar with the conditions and wants of the people.

In the Alameda city district Joseph Knowland is up for reelection. That means an increased majority. During his last term Mr. Knowland showed himself to be an excellent legislator and a loyal representative of the wishes of his constituents.

In the Forty-eighth district Joseph M. Kelly is also a candidate for reelection. Mr. Kelly made a capable Assemblyman and his constituents are fully alive to the fact.

David F. McWade, the nominee in the Forty-ninth, is a young man with an excellent record. His character and standing warrant the confidence reposed in him.

John A. Bliss has been re-nominated in the Fiftieth district as an appreciation of his good service. In the last Legislature he was a credit to Alameda county. Dr. N. K. Foster, the nominee in the Fifty-first, is somewhat new to political life, but he stands very high among his neighbors. He is an educated and earnest gentleman who will worthily represent the banner Republican district of Alameda county.

In short the nominees are all excellent citizens and worthy aspirants for public favor.

The nominees for Supervisor are John Mitchell, incumbent in the Fifth; Councilman H. D. Howe, in the Fourth; and Charles F. Horner in the First. They are men who deserve the confidence of the public. They are all well fitted to sit in the county board and are worthy representatives of their party.

**VICTOR METCALF'S SPLENDID RECORD.**

If there is one man on the Republican Congressional ticket of California who more than any other deserves an overwhelming majority at the polls next Tuesday, that man is Victor H. Metcalf. No constituency has been more faithfully or ably served than have the people of the Third District during Mr. Metcalf's incumbency of the seat in Congress for which he is again a candidate. Enlightened self-interest, if no other consideration, should impel all voters, irrespective of party, to cast their ballots for a man who has already done so much for his district as has Mr. Metcalf, and who can do so much more in the future with the experience and prestige he has gained. It is hardly necessary to urge Mr. Metcalf's claims for the full party vote. The loyalty, zeal and conspicuous ability with which he has labored for the Republican party is the best claim any man could have to a splendid endorsement by the members of his own political household.

American workmen do not need to be told the difference between work and wages and idleness and starvation. That is why the great body of them will vote for William McKinley.

# DOINGS IN THE MUSICAL REALM.

## Local Events of Interest---Success of the Grand Opera Season Assured.

WRITTEN FOR THE TRIBUNE BY JOHN W. METCALF.

"A singer can transmit his emotions by feeling strongly enough himself. Sympathy is the sole transmitter of emotion, and the feelings of an audience are excited by our own, as the vibrations of one instrument is awakened by the vibrations of another."

The Hughes Club will give its third concert of the fourth series, at the Unitarian church in this city on Thursday evening, November 8. The soloists for this concert will be Mrs. Lillian Williams, soprano; Miss Gertrude Halsey, contralto; Miss Margaret Davis, pianist; and Mr. Horatio Cogswell, baritone.

Aside from the solo numbers there will be six ensemble numbers by the club. The program is varied and interesting. The club will sing "Estudiantina" by Lacome, two parts, "O Were Thou in the Clouds" by Glendevon, two parts; "The Wheatfield," "Song of the Nuns," by Jensen; "The Cloister," by Gies; and "By the Waters of Babylon," by Seidelinger.

The soloists will contribute the following: Mr. Horatio Cogswell, "Vision Fair" by Massenet; Mrs. Lillian Williams will sing "The Voice That Calls My Heart," by Saint Saens; Miss Gertrude Halsey will sing two songs—"The Little Red Lark," an old Irish air, and "I Wait at the Bar For Nell," by Clayton Johns. The piano number by Miss Margaret Davis will be the Wagner-Liszt "Pannhauser" march.

The second Minetti's chamber music concert, fifth season, was given before a very large and appreciative audience, and was very successful.

Owing to the Damosch lectures and the grand opera season, the next chamber music concert will be postponed until Friday, December 1. The concert given by the club will be given only to subscribers, and tickets will not be sold at the box office. The price for tickets for the remaining four concerts will be \$1.00.

A very complimentary and just criticism was accorded Miss Anna Miller Wood on the occasion of her recent Sacramento concert, and is taken from the Record-Union of that city. It says: "She is essentially a solo singer, gifted with a contralto voice of great breadth, a register that has won for her the designation of mezzo-contralto. It is of a high volume, and it will be a long time before another singer of her caliber is heard. It is in her voice, her infinite sweetness and profound expression. It is in her voice, her infinite sweetness and profound expression. It is in her voice, her infinite sweetness and profound expression."

Mr. Edwin Dunbar Crandall, the soloist for the next Tuesday evening concert, will have the able assistance of Mrs. J. J. Birmingham, contralto; Mr. Pietro Marino, violinist; and Mrs. F. S. Gutterston, accompanist. Further particulars will appear later.

Mr. Llewellyn Hughes, Oakland's talented young violinist, has been spending some time in New York prior to his departure for Europe.

He will sail from New York on December 5, going first to England, thence to Wales and later to Brussels, where he will settle down to arduous violin study with Caesar Thomson.

A report of the invitation recital given by Mr. Edwin Dunbar Crandall at the First Unitarian Church yesterday evening complimentary to his pupils, Miss Lulu Daniels, will appear in this column next week.

JOHN W. METCALF.

## SECRETARY C. F. CURRY MAKES SUGGESTIONS.

### Receipts of His Office are the Heaviest in the History of the State.

Secretary of State Charles F. Curry has filed his report for the fifth and fifty-first fiscal year with Governor Gage, who has forwarded the same to the State Printer for publication.

The report is an interesting one, and will be much sought after by all interested in the work of State officials and the welfare of the commonwealth in general. Among other interesting data, the report shows that three pardons have been granted; 33 prisoners restored to citizenship at the expiration of their terms of imprisonment; 750 orders of release granted under the Goodwin act; forty commutations of sentence granted; three reprieves and five proclamations offering reward for the arrest of murderers.

In addition to these 500 land patents were granted; 155 appointments of Notaries Public filed; forty-eight Commissioners of Deeds appointed; 61 other appointments made; forty-seven criminal judgments rendered; 3,237 orders of incorporation filed; forty-seven bonds; 516 trade-marks; 238 designations of agent for foreign corporations; 1,000 certificates of bonded indebtedness; eighty-one amended articles of incorporation; twenty-four increases of capital stock, seven certificates of continuation of business; fifteen notifications of incorporation; 2,904 seals affixed to official documents, of which 64 still remain in the office.

The report shows that there was taken in the fifth fiscal year the sum of \$7,518.30, of which sum \$2,743.63 was for fees alone. The salary list of employees of the office, exclusive of that of the Secretary of State, is \$1,490. The office has turned into the State Treasury in excess of the salary roll, the sum of \$2,255.50.

For the fifty-first fiscal year, ending June 30, 1900, the receipts of the office amounted to \$11,671.15 while the salary list amounted to \$10,500, showing that the office turned into the Treasury \$1,171.15 in excess of the salary list. The total receipts of the office for the forty-eighth and forty-ninth fiscal years were \$16,047.45 and \$12,919.75, respectively, and the total receipts of the forty-eighth and forty-ninth fiscal years amounted to \$28,967.20. The excess for the past two years was \$11,671.15.

The following balances were found in the respective funds: Stationery, lights and fuel, \$1,454.46; postage, \$1,000.00; telephone, \$25.00; repairs of Capitol building, \$125.00; for purchasing carpets and furniture, \$100.00; contingent and travel expenses, \$34.00; water for Capitol (no appropriation).

In view of the state of the foregoing funds the following deficiencies will be needed for: For stationery, lights and fuel, \$1,454.46; for water, \$1,000.00. During the next five years the following improvements in the State Capitol building have been made: The roof has been replaced at an expense of \$120, the Senate chamber and corridors, the rooms of the Board of Examiners, Governor's rooms, Superintendent of Schools, Supreme Court chambers, Highway, Code and Lunacy Commissioners, elevator and library have all been repaired and put in good condition, and new tiling, steam pipes and heating placed in the second floor of the building.

The Secretary recommends that the State should own its own electric and water plants, and that modern heating apparatus be substituted for grates and stoves throughout the building; also that the Legislature should increase the number of bill books of the Legislature, as the number now allowed is totally inadequate.

## FREIGHT HANDS WANT MONEY.

### Make a Demand on Company for Increase in Wages.

The freight handlers employed at the West Oakland railroad yards have put in an application for a raise of wages. On the other side of the bay the freight handlers were granted an increase recently, but the benefit did not extend to the West Oakland employees. There are about seventy-five men in the day and night gangs who are interested in the petition.

The rate here has been the same as that in San Francisco, namely, twenty cents an hour for a ten-hour day. The night force has been compelled oftentimes during the rush of business to work overtime, for which no additional compensation has been allowed. In other words, the limit has been a \$2 daily wage. The increase in San Francisco was to twenty-two and a half cents an hour. The Oakland yard freight handlers have asked for the same schedule here.

The appeal of the freight handlers was presented to Division Superintendent J. J. Selzer, who has referred it to Freight Agent Dickinson for a report. The railroad officials claim that there are men enough to work at the ruling rate here. It is not certain that the application of the men will receive favorable consideration.

## WAS FOUND DEAD IN A LODGING HOUSE.

Dennis Brosnan died alone in his room yesterday at 461 Sixth street. His body was found in the evening by an employee of the lodging house. Dennis was a laborer 62 years of age and came to this city from San Francisco about a month ago. He was formerly in the employ of the Spring Valley Water Company. It is presumed that death was due to alcoholism. There was nothing among his effects to indicate if he had any family or who were his next of kin.

## DR. COYLE SAYS HE IS SATISFIED.

Rev. R. F. Coyle, formerly pastor of the First Presbyterian Church of this city, has written a letter to a friend, stating that he is well satisfied with his new charge as pastor of the Central Church of Denver. He says that he has large audiences at services and the people seem to be very earnest. Dr. Coyle will be formally installed tomorrow evening.

For a Cold in the Head  
Laxative Broom-Quinine Tablets.

## SCHOOL BOYS WILL TRY GAME AGAIN.

The Oakland High School and Peralta Hall football eleven have again decided to try conclusions and this afternoon at 5 o'clock will play at Nineteenth and Peralta streets. The teams have already played three games in which neither side has been able to score. Something will break at the game this afternoon, and if possible it will be the tie.

## Death of Mrs. Briggs.

The death of Mrs. Cordelia Briggs at 633 Eleventh street is reported. Deceased was 65 years of age and had resided in Oakland about seven years. The remains will be shipped to Anita, Iowa, for interment.

## WASP WAISTS

Are not much in evidence among American women. The women of America are workers, and a weak waist handicaps a worker. But woman has a greater handicap than a weak waist. She must have a perfect form, beautiful and strong in all its lines, and yet be weak because her strength is undermined by diseases peculiar to her sex.

There is no room for argument as to the weakening effect of these diseases. There is also no room for argument as to the power of Dr. Pierce's Favorite Prescription to cure them. It regulates the periods, stops unhealthy drains, heals inflammation and irritation, and cures female weakness. It is a purely vegetable preparation, and cannot disagree with the weakest constitution. There is no alcohol in "Favorite Prescription," and it is entirely free from opium, cocaine and all narcotics.

Sick women suffering from chronic forms of female diseases are invited to consult Dr. Pierce by letter, and to obtain the invaluable advice of a specialist in the diseases of women. All correspondence strictly private and absolutely confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets keep the liver healthy. They assist the action of "Favorite Prescription" when a laxative is required.

# Candidates on the Republican Ticket are Worthy of the Support of all Good Citizens

**THE** Republicans of Alameda County have nominated an admirable local ticket. In every case the nominee is a representative citizen and a consistent Republican. A perusal of the personal sketches below will convince anyone of their fitness and worth. It will also prove that the Republicans of this county have not departed from their former high standards in selecting candidates for public office. The Congressional, Judicial, Legislative and Supervisorial tickets are all composed of excellent material. Their character and general qualifications should guarantee a clean sweep at the polls next Tuesday.

Everyone should read the personal sketches of the nominees and familiarize himself with their past records and pursuits. When this is done intelligently the work of the Republican convention cannot fail to meet with general approval.

## REPUBLICANS HAVE SELECTED GOOD MATERIAL FOR EVERY OFFICE IN THE GIFT OF THE PEOPLE.

### HON. VICTOR H. METCALF.

The campaign for Congress which Victor H. Metcalf is making for the purpose of being returned to the National House of Representatives has been one of the most complete and successful ever made in the Third Congressional District of this State. In every town, hamlet and frontier in mining and construction camps Mr. Metcalf has spoken upon the history of the Republican party, the prosperity which it has brought to this country, the necessity of perpetuating it in power, and everywhere he has been greeted by enthusiastic people—laborers and artisans, capitalists and professional men—who have given the warmest endorsement to his views and utterances. There is no doubt of Mr. Metcalf's return to Congress. That is assured by his record to this Congressional District, by his unimpeachable integrity, his personal fitness for the office and above all his uncompromising devotion to the country and undying hatred of the country's foes.

No man ever entered a campaign with higher and less selfish motives than those which have animated Mr. Metcalf throughout this exhausting canvass. He has spoken of every body on the Republican ticket save himself. This was because of loyalty to the cause as also because of the modesty which distinguished him throughout his professional career and, in a special manner, during the election tour which is soon to terminate. The difference which Mr. Metcalf has displayed in his own behalf has thus far prevented the publication of a sketch of his career—a subject which is always of interest when people allow themselves to be put forward for public preferment. That difference still exists. Mr. Metcalf, only the modest outline of his career up to the time of his advent to Congress being visible. That outline is the one which Mr. Metcalf has prepared for the Congressional Directory of Senators and Representatives. Since Mr. Metcalf, however, became a man of public affairs, his record has been an open book. At about 11 he is nothing to say, preferring to let his achievements speak for themselves.

Mr. Metcalf has been among the most studious and energetic of the Congressmen of the past two years. Count to the Capitol is a new man two years ago, and representing one of the most important Congressional Districts on the Pacific Coast, some people thought that his would be the experience of new men in that body, viz. waiting for other members to die or to fail of re-election, in order to be given recognition.

Mr. Metcalf's friends, however, know the stuff of which the Congressman was made, and prophesied an early success. His ability was at once recognized by Speaker Henderson, who appointed him upon the two important committees of Naval Affairs and Reform in the Civil Service. As a member of the Naval Affairs Committee, Mr. Metcalf has been unofficially charged with looking after the interests of the Government in the Mare Island Navy Yard. He has secured an appropriation for the building of a granite dry-dock at Mare Island at a cost of about \$200,000, in which the biggest of the nation's war vessels may be docked and repaired. In like manner he has secured appropriations for the enlargement of the plant and the erection of new factories at that place. He has watched out, too, for Benicia and other places throughout the district, more especially Oakland and Alameda. He has expedited the acceptance and purchase of the lot for the proposed postoffice at Seventeenth street and Broadway, spurred on the preparation of the plans for the structure and will carefully guard the interests of the enterprise until the new office will have become a beautiful feature of this city. In the matter of Oakland harbor, Mr. Metcalf has secured the placing of the project of improvement of the tidal canal on what is known as the continuous con-

tract system, which means that the work of deepening and widening the channel will be continued until the appropriation shall have been expended, which will be several years hence. As a consequence of this work, deep-sea going vessels now dock and discharge at Oakland wharves, placing this city in touch with all the largest foreign ports in the matter of trade and commerce.

Alameda, too, has had her wants attended to in the pleading of the Government to finish the tidal canal so that it will connect with San Leandro Bay, thus doing away with a long-standing nuisance which has been a source of annoyance to people in the Encinal City.

A few of these features would be as much as could reasonably be expected of a Congressman of long standing and influence, but they become most remarkable as evidence of influence and power when they are the record of a man who has not yet reached the end of his first term in the National Congress. And yet, besides these, Mr. Metcalf has found time to write thousands of letters to constituents on all kinds of subjects, to procure pensions for needy veterans and their dependents, and, in fact, to attend to business frequently of a private character for his constituents at Washington.

Mr. Metcalf is in the prime of life. Successive terms at the National Capitol will give him an influence second to none in the National House, and then this district will receive what it deserves because of its pre-eminent magnitude and importance.

Victor Howard Metcalf was born in Utica, Onondaga county, New York, October 10, 1853. He graduated from the Utica Free Academy, as also from Russell's Military Academy, New Haven, Conn., and then entered the class of 1876 at Yale. During vacations he studied law with Francis Kernan and Horatio and John T. Seymour, Utica, New York. He left the academic department of Yale in his junior year and entered the Yale Law College, graduating from there in 1879. He was admitted to practice law in the same year in Connecticut and in the Supreme Court of New York in 1877. He practiced law for two years in Utica and then came to this city, where he has since attained distinction in his standing at the bar. He is the senior member of the law firm of Metcalf & Metcalf. He was elected to the Fifty-sixth Congress two years ago, receiving 2932 votes to 1163 for J. A. Jones, Democratic and Peoples party, and to 1200 votes for Thomas F. Burns, Socialist Labor candidate.

### JUDGE JOHN ELLSWORTH.

Judge John Ellsworth of Alameda is the other candidate whom the Republicans have seen fit to re-nominate for the position he now holds and to which he will be elected not alone by the votes of the party of which he is a member, but also by the votes of members of every political party in the county.

John Ellsworth was born in Hartford, Connecticut, in 1842. In 1862 he enlisted in the Twenty-fifth Connecticut Infantry, served under Banks in Louisiana, and was discharged August, 1863. He returned to school and graduated from Phillips Academy, Andover, in 1864. Afterwards he took a partial course in Williams College, Massachusetts. He was admitted to the bar at Hartford in 1867. In December of that year he came to this State, located in Alameda county, first in Brooklyn township and later in Alameda, where he has since resided. He practiced law for a number of years in San Francisco. In 1886 he served a term in the Assembly, and was chairman of the Committee on Constitutional Amendments. For ten years he was City Attorney of Alameda. He was elected Superior Judge in 1888, and was married in 1891. He is a

member of Joe Hoker Post, No. 11, G. A. R., Alameda, and is a Past Post Commander. He has held the Post Quartermastership for several years.

As Judge it has been his duty to sit in several very important cases, involving the nicest points and most intricate problems of law, and from the hearing of which he has emerged with a greater public and professional respect for the clearness of his comprehension and the soundness and honesty of his judgment than was previously entertained.

### JUDGE F. B. OGDEN.

Judge Ogden, who is the Republican candidate to succeed himself on the Superior Bench and who is known throughout the county and State, was born in the State of New Jersey in April, 1855. When 12 years old he came to California, and made Oakland his place of residence. His education and training has, consequently, been largely Californian.

Judge Ogden began the study of law in 1877. In that year he entered the San Francisco office of the late A. A. Cohen of Alameda, as a student and clerk, and remained there for a year or more, after acquiring his license to practice at the bar. When he retired from Cohen's office, he opened an office in this city, and began the practice of his profession here.

The Judge was first admitted to practice in the County Court of Alameda county, by Judge Crane, in 1880. He passed an excellent examination, showing a thorough familiarity with the principles of the law. The following year he submitted himself to another examination before the Supreme Court, in which he was likewise successful.

In 1886, Ogden was nominated by the Republican City Convention, City Justice of the Peace and was elected by the people to the office. He filled the office with such fidelity and wisdom that the convention two years later nominated him by acclamation for re-election, and in the years 1890 and 1892 he was again nominated and elected to the office.

At the last session of the State Legislature in 1893, a fourth Superior Judgeship was created for Alameda county, and Judge Frank B. Ogden was fittingly appointed by Governor Markham to fill the place. He has fulfilled as Superior Judge the most sanguine expectations of his best friends. He has been wise and discreet and sagacious in his trial of cases in his court. He has been courteous in his treatment of practitioners, fair in his rulings and honest in his judgments.

The delegates to the Republican County Convention four years ago recognized that Judge Ogden had fairly earned by his prudence, wisdom and faithfulness, a nomination for another term at their hands and that action has been emulated by the recent Republican Judicial Convention of this county. He was, therefore, given it by acclamation, and his friends are hard known him in the past now know him—

and there are many of them—will vote for him without fear of criticism. Mr. Lukens has been known to many of these people as boy, youth, adult and successful practitioner at the bar.

In the recent revival of the Republican Alliance, which has always had the lead in local campaigns, Mr. Lukens was in the lead, a circumstance to which the members of that society cheerfully bear testimony.

G. Russ Lukens was born in Philadelphia. He came to this State with his parents in 1850, after a residence of

several years in Australia. In 1881 the family removed to Oakland.

Mr. Lukens attended the public schools and graduated from the High School.

After finishing a course at the University of California he obtained a degree from the Hastings Law College and began the practice of his profession as a lawyer. He is a member of the law firm of Wright & Lukens of San Francisco. Though never before an aspirant for public office, he has always been an active Republican. During the State campaign Mr. Lukens was president of the Republican Alliance.

Some time ago, when Senator Fred S. Stratton announced that he would not be a candidate to succeed himself as Senator on the Republican ticket, Mr. Lukens determined to seek the position and was successful.

Mr. Lukens is a student and has given close attention to those fundamental principles that underlie legislation, and is therefore well fitted for the duties of a legislator. He is a calm, logical reasoner. Since his admission to the bar he has proved his ability to detect superficialities and discover facts.

Mr. Lukens is making one of the most systematic and energetic campaigns in the history of the district.

JOHN G. MATTOX.

John G. Mattox, the Republican candidate for the Legislature from the Forty-sixth Assembly District, is, what may truly be termed, a self-made man. The district in which he is running comprises the townships of Washington and Murray and a part of Eden township. Politically speaking, the district is a close one between Democrats and Republicans, but Mr. Mattox' friends say they have no doubt of his election over his Democratic opponent, Henry May.

John G. Mattox was born in Horta City, Fayal, Azores, August 1, 1864. He immigrated with his family to America in 1879, settling in Washington Township, where his family has since made their home.

In 1886, Mr. Mattox became a citizen by naturalization and, at the same time, was admitted to the ranks of the Republican party as one of its most stalwart members.

He has been a persistent and conscientious worker in the cause of the party of progress ever since.

In 1888, Mr. Mattox was elected Road Overseer of the Centerville road district. In 1890, he was re-elected to the position. In 1891 he was appointed Deputy County Assessor serving a term of four years. He was appointed Notary Public in 1893 and has been re-appointed by every administration since that time.

In 1892 Mr. Mattox was elected a member of the Centerville School Board and was re-elected in 1895. In 1895, he was elected member of the High School Board and was chosen Secretary. In August 1897 he passed a successful examination before the Supreme Court, and was admitted to the practice of law having studied in the office of Crowell & Leach in this city. In 1891 he was elected Supreme President of the U. P. E. C., the strongest Portuguese fraternal organization in the State, and was re-elected the following year. In 1899 he was elected Supreme District Director of same and is now filling the position of Grand Treasurer of the order.

Mr. Mattox has always taken a great deal of interest in school matters and will pay special attention to them in the event of his election.

JOSEPH R. KNOWLAND.

The Forty-seventh Assembly district of the State will be represented in the State Legislature at Sacramento at the next session by Joseph R. Knowland of Alameda, who has been nominated for the position by the Republicans of that district.

Mr. Knowland's candidacy this time is the second in which he has appealed to the people of the district for the honor of representing them as their law-maker. He first appeared as a candidate two years ago, when he was elected by a handsome majority.

Mr. Knowland, at that time, was one of the youngest members in the legislature. He went into the House, however, without the handicap of being entirely unknown, because he had been

preceded by the report of the esteem in which he was held by the people of Alameda. Previously to that campaign Mr. Knowland had not taken an active interest in politics. He had later learned himself in the good government of the community in which he resided. He did so in a modest and unassuming manner, and, as a consequence, when the fall campaign came on apace, by common consent, he was looked upon as the logical candidate for the district representative in the Assembly.

During his term at Sacramento, his acts, speeches and votes on all subjects were closely watched by his constituents. The fact that they have made up their minds to return him to the legislative halls is an evidence that there is a close and mutual feeling of appreciation between them.

Mr. Knowland is a man of business, but he has also developed qualifications for the office to which he now aspires and which the people of Alameda feel he will honor to the fullest extent.

### DAVID F. McWADE.

David F. McWade has been chosen by the Republicans as their candidate for the Assembly in the Forty-ninth Assembly District, and like the other nominees of the same party, he will have a solid support. This is assured by reason of his popularity, by his devotion to the party and by his pronounced fitness for the place. Mr. McWade is an attorney, and, other things being equal, members of the legal profession, at least from a technical standpoint should be able to discover whether a law would or would not stand criticism when it was brought up for consideration.

Mr. McWade is a native of Oakland, and has resided here since his birth. He is now 26 years of age. His scholastic work was commenced in the public schools of this city, where he displayed unusual brilliancy and laid the first stones of that foundation for success upon which his career is now happily founded.

After graduating from the High School of this city in 1892, he entered the University of California and graduated in 1897 with the title of Ph. B.

Mr. McWade not only stood high in his studies but was also president of the class in which he graduated.

He then entered Hastings College of Law from which, in due course of time, he graduated with the degree of LL. B.

Mr. McWade has been practicing his profession since his graduation and has made a favorable impression both upon fellow practitioners and court officers by the excellence of his work.

He will make an able legislator.

### JOSEPH N. KELLEY.

Joseph M. Kelley is the Republican nominee for the Legislature in the Forty-eighth district. Mr. Kelley was a member of the last Assembly, to which he was elected by a liberal majority. During that session he familiarized himself with the duties of the office and worked with assiduity.

Mr. Kelley was placed at the head of the Committee on Printing, which committee had a number of things to attend to during the last session. Besides attending to the calls of that committee and those of the sessions of the House, Mr. Kelley found time to devote to the work of several of the committees of which he was also a member.

Mr. Kelley paid considerable attention to bills which were introduced into the House at the instance of residents of this city, some of which succeeded in passing both Houses and Senate. Among these measures may be mentioned that which gives to members of fire departments in incorporated cities, a vacation each year.

Mr. Kelley is connected with the Cascade Laundry.

Mr. Kelley is one of the best known of the young business men of this city. He is courteous to patrons and attentive to all the demands of his line of business. He is prudent and sagacious, factors which have conducted to his success, which is appreciated by all his friends.

### JOHN A. BLISS.

The nomination of John A. Bliss as Republican candidate for the Assembly in the Fifty-fifth Assembly District was not a surprise to the Republicans of the county who had known how

Mr. Bliss stood in the estimation of his constituents. Mr. Bliss came back from his labors at Sacramento during the session of the legislature two years ago, satisfied that he had conscientiously carried out the wishes of the people of the district who had elected him to a seat in the lower House.

He had worked hard and earnestly during the whole session, taking part in all the discussions and diligently attending to the multifarious demands of the committee work, correspondence, and complying with a hundred and one demands of a private character made upon him by the people of his district.

Mr. Bliss acted the part of a business man as well as a legislator, and to him, in a special manner, went a number of people from this section who had bills intended to affect several lines of business throughout the State.

All of these measures received from Mr. Bliss the attention to which they were entitled.

Mr. Bliss was born in Massachusetts in 1842. He served in a regiment through the war of the rebellion. He then went to Lawrence, Kansas, where for 16 years he was connected with the postoffice. He then farmed for three years in Butte county, coming thence to Oakland where he established a dairy produce business. He is now president of the Oakland Cream Depot.

### DR. N. K. FOSTER.

Dr. N. K. Foster is the Republican nominee for the Assembly in the Fifty-first assembly district. This candidacy is the second he has assumed since he attained his majority, the first being that of aspirant for the position of councillor in Laramie, Wyoming, which position he filled for six years.

Dr. Foster is one of the best known men in the county. He came to Oakland thirteen years ago. All of the intervening time he has passed in East Oakland, where he has continuously practiced his profession. The doctor is a native of New Hampshire, where he was born in 1849. He was a Republican from the outset, having imbibed the principles of the party from his father, who was one of the founders of the organization. He acquired a goodly amount of physical strength in the invigorating labors of a New England farm, after which he sought an education of the higher order. He passed with honors through Cornell University and then received his degree as doctor of medicine in the renowned University of Michigan. He had extensive experience in his profession in the Brooklyn hospital, and for three years practiced in New York, and, later, in Laramie. He then came to Oakland.

Dr. Foster has always displayed the keen interest of a model citizen in politics, studying up every question and identifying himself with the Republican party. Recently, he has been prominently identified with public improvements, having officiated as president of the Seventh Ward and United Improvement Clubs.

Charles F. Horner.

The candidate for Supervisor in the First Supervisorial District is Charles F. Horner. This is the first appearance which Mr. Horner has made in the political arena in this country, of which he is a native, but it is not the first that he has made in the domain of politics. Mr. Horner has the rare distinction of having acted as a member of the Hawaiian Assembly, where he served for four years at that time and for some years previously he had been a resident of Hawaii, whether he had gone in search of a fortune.

Mr. Horner is a native of Alameda county. He was born in Centerville about forty years ago. He is the son of a tiller of the soil, and with his father he labored on the burro place, mastering all the details of the work and at the same time retaining a disposition for study. After receiving a rudimentary education in the school of the district he entered Washington College, which was at the time in a flourishing condition and from which later he graduated with honors second to none of the members of his class.

At that time, with an ambition to cultivate an acquaintance with the world and at the same time to attain to success in the cultivation of the soil, he decided to go abroad, and circumstances enabled him to engage in business in the Hawaiian Islands in connection with the Pioneer Sugar Company. His first duties in connection with that concern were those of foreman. He rapidly rose to the position of superintendent of the plantation, handling with consummate ability and satisfaction to the company at times more than 500 men. In the meantime, by means of prudence, sagacity and thrift, he managed to acquire a competence, and, when this he decided to return to his native town. Shortly before his departure for this country the confidence was reposed in him of election to the Assembly of Hawaii, in which he distinguished himself as a man with a mind peculiarly fitted to see the benefits and defects of legislation both with regard to commercial and civil requirements.

On returning to Alameda county Mr. Horner established his permanent home in Centerville and entered upon the avocation of a farmer, cultivating a large tract of land with all the skill and care of an expert agriculturist.

Mr. Horner is a man of means, cultivation and devotion to his country. He has plenty of leisure time to devote to the needs of his district, and the public spirit to see that his district is conscientiously represented. He is popular with all who know him, and his friends are numerous in all parts of the county.

### H. D. ROWE.

H. D. Rowe, at present a member of the City Council in which he represents the Seventh Ward, is the regular Republican nominee for Supervisor in the Fourth Supervisorial District. He is now engaged in the insurance and real estate business and has been prominently before the people of this community for a number of years.

Mr. Rowe has always taken an interest in public affairs and this fact has led him into a number of public offices of honor and emolument. The most important office to which he has thus far aspired is that of Supervisor of this county, the election for which is to be held on Tuesday next.

Mr. Rowe is a native of Illinois, having been born on a farm, where he became, inured to the long hours, hard work and frequently scanty returns of the tiller of the soil. He moved from his native State to Iowa, where he took up the study of law under the fostering care of the Iowa State University. He succeeded in graduating with honors from his class and was duly commissioned to practice law in the great State of Iowa.

He became City Clerk of Iowa City, where he served with credit to himself. He was then chosen to the important position of Secretary of the State Historical Society of Iowa, a position in which he displayed unusual aptitude for the varied and scholarly duties devolving upon him.

In 1884 Mr. Rowe turned his face toward the farther West and came to California, where he has since resided. He decided to establish his home in Oakland, where he at once became a taxpayer and where he has since lived. He first found employment in the office of the City Clerk, where he introduced a number of new features which he had demonstrated to be a success in Iowa City. He then engaged in business in San Francisco, and later still established himself in his present calling in this city, his office now being in connection with the Board of Trade.

Four years ago Mr. Rowe was elected to the position of Councilman. Two years later he was re-elected by a good majority to the same position. He filled the position of president of the Council for one term and at different times presided over the Committees on Ordinance and Judiciary, Printing and Municipal License. He has been an active and resolute worker and has accomplished a great deal for his constituents. One improvement to which he devoted himself with great assiduity was the paving of East Twelfth street and a number of other streets in that section. The Fourth District includes a large part of Oakland and Berkeley.

JOHN MITCHELL.

John Mitchell, Supervisor of the Fifth Supervisorial District, has verified the prediction made of him four years ago by his friends when he aspired to the position to which he was then elected by a handsome vote. His record was achieved under no easy circumstances, because there were many matters before the Board upon which

### The meddler.

The week has been largely one of suspended animation, while we wait for the many good things which are in store. There were two big dinners, a lovely pink one given by Mr. and Mrs. William Magee on Thursday night and the dinner given on Friday night by Mr. and Mrs. Philip Williams, in honor of Mrs. Stone, of course.

As I told you last week, the Magee dinner was in honor of Dr. and Mrs. H. Nelson Jackson, Miss Hush and Mr. Wells. Everything was carried out in most harmonious detail and everything went as merrily as a marriage bell. There were toasts and felicitous speeches and much gaiety. Mr. and Mrs. Will Magee are entertaining Dr. and Mrs. Jackson and the house party which is being entertained at Etanemore in Fruitvale is having a jolly time.

Beside the Hush wedding next Wednesday evening to which about two hundred invitations have been issued, there are cards out for an elaborate tea at Highlands. Several hundred invitations have been sent out in the names of Mr. and Mrs. Isaac Lawrence Bogue and Mr. and Mrs. Oscar F. Long. The name of Miss Lucy King also appears on the cards, for the tea, which is set for the afternoon of November 10th, is in honor of the coming out of that young lady. Oaklanders remember well the very sweet and very young girl who acted as maid of honor when Miss Amy Requa became Mrs. Oscar Fitzgerald Long. Miss King is a green girl on that occasion and looked very charming indeed. Since then she has passed the years at Ogontz, where she was graduated this year. She is fortunate in being the niece of Mrs. Isaac Requa and also of Mrs. John Shaw of New York. After her graduation Mrs. Shaw, for whom she is named, took her abroad and since then she has been traveling in Europe. Miss King has just returned to her California home and this tea will formally present her to society. She will make a most attractive addition to the ranks of the debutantes.

Meanwhile Colonel and Mrs. Oscar Long are traveling in the East. In New York they were the guests of Mrs. John Shaw, and since then they have been in Washington, where they have been charmingly entertained by many prominent people.

The D. K. E. dinner to Mrs. Hearst was a very elaborate affair and, as I remember correctly, the first college function given in distinct return for all Mrs. Hearst's social attentions last winter. The decorations were pretty. The new house of the D. K. E.'s is very tasteful and the table was very large. A number of prominent matrons were present, among them Mrs. Goodfellow, Mrs. A. A. Moore, Mrs. Bishop, Mrs. Benjamin Ide Wheeler, Mrs. Davenport, Mrs. John F. Merrill and Mrs. Howard Johnson, whose husband was once a U. C. student and who is here from Eureka or some other town in the north. Of course there were young men by the ream, and it was a delicate attention to the matrons that no young ladies—excuse me, I mean unmarried ladies—were asked. It was the matrons' chance to shine. No ivory necks were placed in disastrous contrast to theirs, and "sweet and fort" was the belle of the evening. Beardless youths paid them the attention usually lavished on buds in their teens. Pretty idea, nest coo?

The card clubs are, of course, in full blast. Too full blast, some of my clerical friends think. The Cosmos is running smoothly, as is the Kate Wheeler and Innumerable smaller ones which are not so well in membership. The Piedmont Whist Club, of which Mrs. L. E. Booth is president, has decided not to give any prizes but to devote the money which would have been spent in that way to the Piedmont Improvement Club, in which all the members are much interested.

There were fewer Halloween parties than usual, the most interesting one of which I heard being that given at the King's Daughters' Home for Incurables on Oak street, where the dear old people held a celebration all their own. Every one who is not bedridden was moved downstairs in wheeled chairs and the nurses labored long and faithfully to get their charges safely into the big dining-room where there was bobbing for apples, all the old games that could be played by semi-invalids. Delicious refreshments with the sweetmeats and dainties that old people love were served. No boys and girls were ever merrier than these patients of the King's Daughters.

The Misses Gage are continuing their

delightful euchre parties which have given such pleasure to their many friends, and will give another on Monday. The hospitality of the Gage home is most charming, and the three young women who have acted as hostesses at these parties seem never to tire in the dispensing of it.

The Fabiola donation party was, I hear, most successful. People do not tire of giving to this most worthy charity and admirably managed hospital. Dr. Vida Redington, who lives in West Oakland and who is a Berkeley graduate, spoke on the hospital of Johns Hopkins and other institutions to the east of us which she visited during her recent post graduate study in Eastern States.

I regret that Mrs. Luning's tea is too late for me to chronicle. A great many cards have been sent out and a delightful program planned, and I am sure that there will be an excellent attendance if the good weather holds out. The Temescal fire kindergarten is most worthy and much needed.

Speaking of Berkeley reminds me that the students are not ungrateful to Mrs. Hearst for all that she has done for them. They are in fact in her honor a fountain in the grand court. It is to cost \$10,000 and the students and alumni are expected to contribute to it. A book of short stories by students and graduates of the institution will be published to assist in defraying the expenses.

And I am reminded by Alice, who sits at my elbow watching me as I write and stoking my darling tabby, which backs before the open fire, that I have, so far, omitted to say one word of Mrs. Sather and her great generosity toward our noble State institution in which we take so just a pride. Mrs. Sather has given two large sums of money and very sensibly has provided for it before her death so that no envious relatives may interfere with her wishes after her demise. The Regents are extremely grateful to Mrs. Sather, and her gift of ready money comes in as a very timely offering.

The Ladies' Minstrels in Alameda were a great success as I predicted they would be. Mrs. Frederick Youngberg, formerly Ollie Lunt, being especially vivacious. In fact, she made a decided hit. There is talk of repeating the performance, which was for charity and which was a great deal of work in the way of rehearsing to end with a single performance.

Major Herman Bendel has returned from Europe, where he left his family snugly ensconced in Switzerland. The two younger Bendel boys are in boarding-school, and Mrs. Bendel and her daughters are residing over a beautiful home. Major Bendel will return in a few months and will accompany the family home at the end of a year. Stockman Bendel, who is in a cadet at West Point, has been very ill, but after an operation for appendicitis is now quite recovered.

Mrs. Sherman, formerly Latta Booth of Piedmont, will return in the spring on a visit to her parents.

Every one is preparing for the first night of the opera, which takes place on Monday, November 12th. It will probably be one of the most magnificent audiences ever seen in San Francisco, and all the jewels and décolleté frocks will be out for the occasion. In preparation Walter Damrosch's lectures on the Wagnerian Trilogy are being exceedingly well attended. Yesterday he gave the charming one on The Valkyrie. There was a crowded house composed almost entirely of women and music lovers. I noticed many people from Oakland, among them Miss Minnie Bailey and Mrs. Bailey, Mr. and Mrs. H. M. A. Miller, Miss Mabel Craft, Miss Blanche Partington, Mrs. Martin Schultz, Mrs. J. W. Phillips and Miss Lucile Hays. Oakland may be relied upon to furnish her full quota of attendants at the opera. What though the Wagnerian performances do begin at 7:30 and last until all hours of the night? What do we care? Such treats come only a few times in a lifetime. There are to be three weeks of grand opera, and it's time to take your turn out of the north hills and shake out your velvet and lace. Diamonds will come forth from safe deposit vaults and the merry burglar will drive his blisk and booming trade.

Helsho. If I only had a pearl necklace I think I'd be perfectly happy. One of the girls who has just returned from Paris has brought with her a lovely pearl collar—imitation, of course, though she doesn't say so. Paris, you know, is the home of imitation jewelry and many an American beauty has purchased her gems from those clever artificers. No one ever knows the dif-

ference and if anything happens to the Laubias a fortune is not lost and it is easy enough to replace them.

Well, we can't have everything for which we sigh, but the fine feathers of grand opera nights always make me a bit envious and discontent. Hey nonny, nonny, what's the use of repining? We can't all be healthy, wealthy and wise. It's quite enough for one poor immortal to have one of these good and perfect gifts and I'm certainly healthy and growing wiser every day. I'm wise enough just now to bid you a very good evening from the

### COUNTRY CLUB'S DEBUT.

The first dancing party of the new Piedmont social organization which is known by the unique name of the Country Club, was given last night in the Piedmont Club House. The scene is far removed from the heart of town, which such gatherings usually take place, but the party was none the less enjoyable for that reason. For a hall house in an old style building, with a well-kept lawn, a swimming pool, a tennis court, a golf course, a clubhouse, a pavilion with open loggias through which came the odors of purple and pink flowers, the interior was a very pleasant surprise. The members of the organization and the members of the Country Club, who are expected to contribute to it, are expected to contribute to it. A book of short stories by students and graduates of the institution will be published to assist in defraying the expenses.

At the last gathering of the Ladies' Whist Club, the following members were present: Mr. and Mrs. Sanborn, Mr. and Mrs. Edwards, Mr. and Mrs. Robert Adams, Miss Priely, Miss Lou Crew, Miss Gilchrist, Miss Louise Grossett, Miss Thompson of Oakland, Miss Schull, Mr. Beach, Mr. Dean, Mr. Lusk, Mr. Hummer, Mr. Hutton and Mr. Gilchrist.

The meeting was held at the residence of Miss Crew which was charmingly decorated. Refreshments were served during the evening. A small gift clock was the first lady's prize and was won by Miss Priely. A "stolen" gentleman's prize was won by President Sanborn of the club.

### GIPSY FORTUNE-TELLER.

Eleanor Mackworth, Miss Gladys Harvey, Miss Harrington, Miss Helen Dugan, Gertrude Henshaw, Miss Claire Goodman, Hazel Stafford, Miss Sybil Tripp, Katherine Walker, Miss Juliette Cooke, Gypsy, Miss Gladys Team.

### COUNTRY WHIST CLUB.

Last evening there was a delightful assembling at the residence of Mr. and Mrs. Harry Meek, San Leandro, of the Country Whist Club which was attended by many others, by the following lovers of the game: Mr. and Mrs. William L. Meek, Mr. and Mrs. N. A. Acker, Mr. and Mrs. T. A. Crellin, Mr. and Mrs. Robert S. Knight, Mr. and Mrs. Robert Stone, Mr. and Mrs. James G. Allen, Mr. and Mrs. George L. King, Mr. and Mrs. Frederick M. Hathaway and Mr. and Mrs. Harry Meek.

### WHIST AT LORIN.

At the last gathering of the Lorin Whist Club, the following members were present: Mr. and Mrs. Sanborn, Mr. and Mrs. Edwards, Mr. and Mrs. Robert Adams, Miss Priely, Miss Lou Crew, Miss Gilchrist, Miss Louise Grossett, Miss Thompson of Oakland, Miss Schull, Mr. Beach, Mr. Dean, Mr. Lusk, Mr. Hummer, Mr. Hutton and Mr. Gilchrist.

### FAREWELL AT STATION.

A party of friends assembled at Sixteenth-street depot last Thursday morning to see Mrs. Thomas Stein and her family. Mrs. Stein is on her way to New York. On November 7th William Stein will leave New York for South Africa, where he will take charge of large mining interests. He will return in about thirty days. On their way home they will spend a week in Chicago.

### ANGWIN-BUSBY.

Miss Helen Busby, daughter of Mrs. Harry Busby of West Oakland, was married last Thursday evening to J. Ernest Angwin. The ceremony was performed in the Chester-street Methodist Church, in the presence of about 25 invited friends and relatives. The bride is a daughter of Mrs. Ernest Angwin, who is a daughter of Mrs. William Angwin of Nevada City and Rev. John A. Stevens of San Francisco, founder of the groom.

### GERMAN LADIES' BALL.

On the evening of November 20th a ball will be given in Germania Hall by the German Ladies' Relief Society. The money realized will be used to aid the helpless, especially widows and orphans during the winter. The ladies in charge of the affair are Mrs. A. Schuler, Mrs. Lange, Miss Wilkins and Miss Baumann. The president of the society is Mrs. J. H. Haeckel, vice-president Mrs. Charles Holmers, secretary Mrs. Werner, treasurer Mrs. George Uhl.

### SURPRISED ON HALLOW E'EN.

A very enjoyable Halloween surprise party was given Mrs. T. W. Welch formerly Miss Blidie Pletcher, at her residence in Berkeley last Wednesday evening.

A few friends only were expected by the hostess and anticipating their coming she had the house decorated with jack-o'-lanterns, green and white streamers, and a number of friends, a ghostly tribe in sheets and pillow cases, surprised the hostess.

The evening was pleasantly spent in music and old-fashioned Halloween games.

At a late hour, supper was served, and then the merry visitors departed. Among those present were Mrs. Welch, Mrs. Pletcher, Mrs. Lillian Butler, Mrs. Mason, Miss Annie Jones, Miss Jessie Simmonds, Miss Frederick, Miss Dora Meyer, Miss Whelan, the Misses Caroline, Messrs. W. Welch, A. Welch, Frank Lockyer, Todd, Jennings and Labort.

### A DANCE AT THE GALINDO.

Last Tuesday evening, the attaches of the Galindo Hotel gave a most delightful party in honor of the guests of the place.

The arrangements were perfect. The music was excellent and to its waltzing charms, those present danced, save during the intermission for refreshments, until an early hour in the morning.

Those present included Mrs. Barbara Allen, the proprietress of the house, Mr. and Mrs. Stevenson, Mr. and Mrs. H. H. Allen, Mr. and Mrs. E. J. Allen, Mr. and Mrs. Charles, Mr. and Mrs. Jeter, Miss Beth Jeter, Frankie Stevenson, Earl Stevenson, Mr. Lyman, Mrs. Beuller, Mr. Richardson, Mr. Kieffer, Miss Allen, Miss Kate Traylor, Miss Flora Rutter, Mr. and Mrs. Charles Franks, Samuel Ruel, Charles McKenzie, Mr. Arrellans, Mr. Bowman, T. Dierks, Mrs. Beckett, Mr. Nelson Jackson, Mrs. Fred Watson, Miss Edna Watson, Mrs. Reynolds, Mr. Dooley.

### ANNOUNCEMENTS.

During the absence in the East of Mrs. Charles Houghton, the meetings of the Monday afternoon Club will be presided over by Mrs. Robert Stone. The Misses Nicholson are to give a card party next Thursday afternoon, in honor of their friend, Miss Beattie Gage.

The first dance of the Junior Cotillion will take place in the Town and Gown Hall in Berkeley Saturday evening. The patronesses are Mrs. Benjamin Ide Wheeler, Mrs. Frank Wilson, Mrs. Charles B. Mills, Mrs. Frank H. Payne and Mrs. Thomas Richard.

Grand preparations are being made for the second grand annual ball of the Monday afternoon Club, which will be given tomorrow night in Armory Hall on Twelfth street, to which all the friends of the union are cordially invited. A jolly time is promised.

### THE COSMOS SEASON.

The Cosmos Whist Club held a meeting a few days ago at the residence of Mrs. Cedar Sather at which there was an encouraging attendance of members. The purpose of the gathering was to outline the work for the season. Arrangements are now well under way and the first meeting of the club will be given tomorrow night in Armory Hall on Twelfth street, to which all the friends of the union are cordially invited. A jolly time is promised.

### BERKELEY COTILLIONS.

The cotillion of the new social club of Berkeley will be given in the Town and Gown Hall in Berkeley Saturday evening. The patronesses are Mrs. Benjamin Ide Wheeler, Mrs. Frank Wilson, Mrs. Charles B. Mills, Mrs. Frank H. Payne and Mrs. Thomas Richard.

## MISS BRUNTSCH WAS A SUCCESS AT THE TEA.

Charming Alameda Contralto Has a Very Bright Future Before Her.

MISS MARGARETHE BRUNTSCH.

Miss Margarethe Bruntsch, a charming young vocalist of Alameda, sang this afternoon at the Kindergarten tea given by Mrs. Oscar Luning at her home on Telegraph avenue. She scored a big success. Her singing was a revelation and took her audience completely by surprise.

Her selection was "Cade la Fern," "Daylight is Waning," by Millotti. For an encore she sang "Pavane" by Bizet.

Miss Bruntsch has a rich, true contralto voice of great scope. For several years she has been a student of the Garcia method of vocal culture. At present she is studying under Prof. Herman Genes of Berlin, who is stopping temporarily in San Francisco.

The young lady has made remarkable advancement in her musical studies and her friends and admirers predict for her a brilliant future.

## MRS. LUNING'S TEA BRINGS OUT SOCIETY.

The Kindergarten tea which has been so long in contemplation by Mrs. Oscar Luning at her residence, 2555 Telegraph avenue, is in progress this afternoon. The completeness of the details show how carefully that lady has worked in the cause of uplifting humanity. In her laudable efforts, Mrs. Luning has had the assistance of Mrs. H. P. Stevenson, Mrs. George Morrow, Mrs. John Dean, and Mrs. John Ballard.

Among the ladies who are assisting Mrs. Luning in receiving are Mrs. Isaac Requa, Mrs. William B. Brown, W. E. Sharon, Mrs. Frederick Russ, Mrs. Clinton Day, Mrs. Allen Babcock, Mrs. Frank L. Adams, Mrs. Ernest Folger.

These ladies belong to the matron class but all the work has not been done on them, because there is a host of merry maidens who are eager to help to assist in the good cause, who are doing the labor and honors with their elders. Among these may be mentioned Miss Violet and Miss Beatrice Life, Miss Charlotte Elmer, Miss Gertrude Ballard, Miss Marie, Miss Mary Shaffer, Miss Isabelle Evans, Miss Carol Day, Miss Kenna, Miss Rowena Smith, Miss Florence Morgan, Miss Lillian Saklatvala, Miss Della Weston, Miss Mabel, Miss May Coogan, Miss Helen Dugan, Miss Adele Brown, Miss Vesta Colby, Miss Morrow, and Miss Anita Thomson.

On the program among other features are the names of Miss Margarethe Bruntsch of Alameda, Miss Charlotte Munsell and a string orchestra.

There is a large attendance, a liberal expenditure of money by the visitors and a prospect of an encouraging financial result.

### MRS. HEARST HONORED.

The kindly and liberal work, in their behalf of Mrs. Phoebe Hearst does not lack appreciation on the part of the students of the University of California. Thus far in the season, the patronesses of the University has had a number of social functions held in her honor, all of which have been charmingly successful. The latest of these was a dinner, Monday last, by the Delta Kappa Epsilon Fraternity. There was a good company present, among them being President and Mrs. Wheeler, Mrs. Davenport, Louis Dyer, Mrs. John F. Merrill, Mrs. W. S. Goodfellow, Mrs. A. A. Moore, Mrs. Sawyer, Mrs. Bishop and Mrs. Malone.

The decorations were elaborate, the prevailing hues being blue and gold, the "colors" of the University.

The principal feature of floral garniture was a center piece of a yellow chrysanthemum from which radiated blue streamers, each streamer extending to the place of a guest and bearing the name of that guest in daintily wrought letters.

The pleasure of the dinner was most pronounced and is to be credited to the efforts of Arthur W. Goodfellow, Stanley Moore, Hugh Goodfellow, Hewitt, Mrs. George W. Symmes, Jr., Roger Chickering, Wilder Wright, H. P. Sherman, C. Posey, T. W. Haskins, C. E. Hume, H. C. Malone, R. D. Merrill, H. Bradley, L. B. Chalmers, F. E. Bishop, L. A. Wamble, C. E. Newlin, and L. D. Sawyer.

### AT HOME AT HIGHLANDS.

There is to be an at home at the residence of Mr. and Mrs. L. L. Requa at the Highlands, one week from today when Mr. and Mrs. Isaac Lawrence Requa, Colonel and Mrs. Oscar Fitzgerald Long will meet their friends from 3 to 6 o'clock p. m. The affair will be in honor of Miss King. It is expected that there will be a large attendance from both this city and San Francisco.

### MADEE DINNER.

The most elaborate dinner of the week was given on Thursday last by Mr. and Mrs. William A. Magee at their residence on Madison street in honor of Dr. and Mrs. Nelson Jackson, Mrs. Fred Watson, Mrs. Wella, Mr. and Mrs. Frederick Wells of New York City and Mrs. George W. Symmes, Jr. and Mrs. P. E. Bowles, Mr. and Mrs. Mark L. Requa, Mr. and Mrs. Charles S. Wheeler of San Francisco, Mr. and Mrs. Thomas Magee Jr., Miss Jean and Miss Florence Hume, Miss Ella Goodale, Miss Nellie Chabot, the Messrs. Allen

clation on Franklin street, near Durant, Thursday afternoon and night and yesterday afternoon and evening.

A report of Thursday's proceedings has already appeared in these columns. Yesterday's program included a piano solo by Miss Hagar, vocal music by Mrs. Martin Schultz, a reading by Miss Clara Belle Russell, and a violin solo by Miss Gertrude Ballard.

There was a large attendance at both services and the management desires that the exhibit and the financial outcome be highly satisfactory.

### CLERGY ENTERTAINED.

Father James P. S. Huntington and Father Ray and family of St. John's Episcopal church were entertained at tea by Mr. and Mrs. C. E. King at 271 West street last Tuesday evening.

### INFORMAL DANCE.

Cards have been issued by Miss Stone of 912 Adeline street for an informal dance to be given at the Piedmont Park Club House.

### NEIGHBORHOOD WHIST.

The Neighborhood Whist Club was entertained Tuesday afternoon by the Misses Ione and Pauline Fore at their home, 1414 Franklin street. Light refreshments were served at the conclusion of the card playing. Those present were: Misses Ione Baker, Miss Beattie Palmer, Miss Edith Gaskill, Miss Ethel Valentine, Miss Bracie Gage, Miss Florence Hayden, Miss Christine Taft, Miss Maud Edith Lane, the Misses Pauline and Louise Fore, and the Misses Pauline and Ione Fore.

### HALLOW E'EN IN FRUITVALE.

A "Jampkin social" was given last Tuesday evening at the Fruitvale (the regatta) church by the King's Daughters. Shocked corn and jack-o'-lanterns were used in the decoration. Mrs. Spencer Riley was in charge of the program and was assisted by Mrs. E. H. Marsdel, the Misses Dyer and Thomas H. Warren, the which scene from "Macbeth" was a great feature of the entertainment, three young ladies impersonated the witches. Refreshments were served under the direction of Mrs. M. S. Heuser.

### LINDA VISTA WHIST.

Mr. and Mrs. A. F. Coffin entertained the Linda Vista Whist Club at their home, 162 Perry street, last Thursday night. The rooms were prettily decorated, the dining-room being entirely red. Among the guests were: Mr. and Mrs. Samuel J. Taylor, Mr. and Mrs. Ernest A. Heron, Mr. and Mrs. Edward M. Walsh, Mr. and Mrs. Bert S. Hubbard, Mr. and Mrs. Edward D. Hirt, Mr. and Mrs. John A. Brown, Mr. and Mrs. Robert B. Calley, Mr. and Mrs. John D. Eby, Mr. and Mrs. Richard M. Lyman, Mr. and Mrs. Ernest J. Cotton, Mr. and Mrs. John A. Britton, Mr. and Mrs. George W. Symmes, Jr., Mr. and Mrs. W. F. Kelly, Mr. and Mrs. James F. Wiggins and Mr. and Mrs. A. F. Coffin.

### WILLIAMS' DINNER.

Mr. and Mrs. Philip A. Williams gave a dinner last evening at their home, 1205 Avenue, in honor of Mrs. Williams' mother, Mrs. J. C. Tucker, who has returned from a six-months' visit last.

### MISS HAYDEN'S DEBUT.

The debut in society of Miss Florence Hayden will take place Thursday next at her home, 1223 Madison street. The reception will be held from 4 until 7 o'clock p. m. Miss Hayden will be assisted in receiving by young lady friends, among others, the following: Miss Orla Middleton, Mrs. Ruth Dugan, Miss Christine Taft, Miss Beattie Palmer, Miss Edith Gaskill, Miss Ethel Valentine, Miss Bracie Gage, Miss Florence Hayden, Miss Christine Taft, Miss Maud Edith Lane, the Misses Pauline and Louise Fore, and the Misses Pauline and Ione Fore.

The following young gentlemen have been asked to come to the party: William, Miss Christine Taft, Miss Beattie Palmer, William King, Earl Anthony, Mr. and Mrs. J. L. Lennett, Parker Holt, H. Nicholson, Rex Hanna and Philo Rendley.

### MASQUERADE BALL.

Pride of the Forest Circle No. 122, C. O. F. will give a prize masquerade ball, next Thursday evening in Pythian Hall, Twelfth and Franklin streets.

### CATHOLIC LADIES.

The Catholic Ladies' Aid Society will hold its installation of officers Monday evening, November 19, 1900. All members are requested to be present.

### MERRILL KINSEY'S PARTY.

Mrs. C. W. Kinsey entertained for her son Merrill about twenty of his young friends at her home on Twenty-fifth street, on Monday evening. The guests were in evening attire, and much fun prevailed in guessing who the other was. Old-fashioned games were the order of the evening, and the party was ended by punch, lawn tennis and candles. Those present were: Misses Isabel Schumper, Ethel Johnson, Gertrude Russell, Mabel Colby, Lulu Adams, Miss Helen Dugan, Miss Ida Grosser, Vera Cope, Fanny Perkins, Teresa Knowles, and Lloyd Roberts, Howard Chittenden, Emory Farron, Vincent Visher, Harry Leach, Vance McClymonds, Harold Baxter, Philip and Dudley Lennay and Merrill Kinsey.

# BIG ODDS GIVEN ON WM. M'KINLEY.

## Claim Made That He Will Carry the State of California By at Least 20,000.

BY GEORGE F. HATTON.

Special to the Tribune.

SAN FRANCISCO, Nov. 3.—A thousand dollars to five hundred dollars that McKinley will carry California by 10,000.

The money with which to make this wager has been deposited, and any Democrat who believes that Bryan has a chance to get California should not hesitate—that is if he has the coin to back up his convictions. He will not be put to any trouble either, in making the bet, for if he will apply to Senator Cutter at the headquarters of the Republican State Central Committee in the Palace Hotel his money will be covered in less than five minutes.

The offer comes as a pretty good idea of the way the Republican managers feel as the campaign closes in. During the past few days reports have been received at the State Central Committee from every branch of the organization in California, setting forth the outlook in the respective sections and after pruning down, allowing for over estimates and scaling down for under estimates, the totals still indicate that McKinley will carry the State by 15,000. As a matter of fact 25,000 could be considered an extremely conservative estimate in view of the figures received, and when Secretary Cutter reported to the National Committee a few days ago that McKinley would command that majority in this State, his declaration could not be considered a colored one.

"The State Central Committee has prepared some private estimates of the result," said Senator Cutter in conversation with your correspondent today, "but we do not want to give them out in detail form as it is scarcely good politics to do so. Speaking generally, though, I will say that to claim the State for McKinley by 15,000 is a very conservative statement for the indications are that his vote will run far beyond that figure. In San Francisco we anticipate a Republican majority of from 3,000 to 4,000 while Los Angeles, instead of going for Bryan as it did four years ago, will think give a Republican majority well in the thousands. Every report we have received has been eminently satisfactory and we have our calculations not only upon the statements of the various local organizations, but upon the impressions obtained by the speakers and campaigners sent out from headquarters. There is not a single part of the State in which we have heard, and California is undoubtedly going to establish her Republicanism next Tuesday in a manner that will effectively remove her from all possibility of being classed as a doubtful State in the future."

"Apart from the national ticket, Republican success seems assured in both Congressional and legislative channels. We have had a hard fight in some of the districts, but we now feel thoroughly justified in claiming that California will return a solid Republican delegation to the House. The complexion of the next legislature is also certain beyond the shadow of a doubt. There can, of course, be no question that we will control the Senate, while as for the House, I am confident that we will have fully 150 members—far more than the minimum—of whom we will be able to put down as a positive majority, for there seems no way in which the total can be figured less than that."

Senator Cutter's statement can be accepted as one prompted by sound judgment and an absolute portrayal of the situation, for he is not one of those individuals who permits his enthusiasm to stop over, but on the contrary is more inclined to figure on the dangers rather than the certainties of a fight. As secretary of the State Central Committee he has had an opportunity to get in actual touch with the conditions, for everyone who has ever had anything to do with a State political fight knows, when its financial help is being made up by county organizations, they always paint the dark side of the situation in their districts as a reason why it is necessary to use money in making the fight. After viewing the situation, therefore, from this standpoint, as well as from the optimistic one of campaign orators who naturally think they are making converts by the thousand he is well qualified to express an expert opinion, and that the one recorded above represents his honest convictions on the issue, your correspondent is thoroughly satisfied.

**THE REDISTRICTING**

With the Republicans therefore practically assured control of the next legislature, the question of reapportioning the State rests solely to that party. Some people have imagined that if California does not secure an extra Congressman the State will be redistricted, but will be left according to the present lines, but such is not the case, for the work of reapportioning is mandatory every ten years owing to the changes that occur in the population. Whether or not, therefore, we

# GREAT WORK OF HON. W. R. DAVIS

## Captured Twenty-five Democrats at One Meeting.

(From Sacramento Sunday News.)

W. R. Davis of Oakland surprised those who did not know him. His speech here on Wednesday night was the best heard here on either side during the present campaign. His superb arrangement of facts, his easy delivery and forceful logic, combined with timely eloquence, made up an address that was highly appreciated by the large audience that crowded the Opera House. Mr. Davis became a favorite with the Sacramento public. His speech ought to be printed and circulated liberally, for no better Republican campaign literature has put in an appearance in California this year. Many people who heard Mr. Davis expressed regret that he was not present in debate with D. M. Delmas, the Democratic idol. Well informed people who have followed the canvases can fully pronounce Davis' effort as the best that has been given out in this State either in print or on the platform. There was no demerit in his utterances, no effort to play upon prejudice, no allusion to offensive personal references, but a gentlemanly, forceful logical discourse, and straightforward talk from beginning to end. This was the more noteworthy because Mr. Davis came untroubled and almost unknown.

When W. R. Davis of Oakland spoke at Crockett, below Port Costa, the other evening, he made a decided hit, and when he got through twenty-five Democrats voluntarily stepped forward and signed the roll of the Republican club.

# LAST MEETINGS OF CAMPAIGN.

## Big Republican Rally Will Be Held This Evening.

The final guns of the campaign will be fired tonight throughout the country, and Oakland will wind up the good work Monday night with a rousing demonstration at the Tabernacle.

The National Republican League will have a joint club meeting tonight in the Central Bank building. All of the Republican clubs of Oakland have united for this meeting, and there will be a list of local speakers as follows: W. R. Davis, George W. Reed, H. A. Melvin, H. A. Russell, George Samuels, Thomas Pearson, Charles N. Fox, President, Quarter Century Republican Club; J. E. Parnum, President, National Republican League; Z. N. Goldsby, President Army and Navy Republican League; B. F. Woolner, President Young Men's Republican League.

**AT LIVERMORE.**

Down at Livermore this evening Congressman Victor H. Metcalf will make his last appearance in the role of the county. The Republicans of this section have prepared a monster reception for the popular Congressman.

Mr. Metcalf will speak at the meeting in Oakland Monday evening at the Tabernacle. He will address the meeting in company with William R. Davis, candidate for Presidential Elector, G. H. Lukens, candidate for State Senator in the Twenty-seventh District, will preside.

# REPUBLICAN CANDIDATES.

the people at large had divided, but Mr. Mitchell was always found upon the right side of every proposition. No man could be more attentive to the duties of his office than he has been. He has attended practically every meeting of the Board, and whenever his presence was required in any part of his district or in any part of the county, no matter what might be the nature of the weather, he was always on hand.

# REWARD OF MERIT.

## A New Cataract Cure Secures National Popularity in Less Than One Year.

Throughout a great nation of eighty million it is a desperate struggle to secure even a recognition for a new article to say nothing of achieving popular favor, and yet within one year Stuart's Cataract Tablets, the new cataract cure, has met with such success that today it can be found in every drug store throughout the United States and Canada.

To be sure, a large amount of advertising was necessary in the first instance to bring the remedy to the attention of the public but every one familiar with the subject knows that advertising alone never made any article permanently successful. It must have in addition absolute, undeniable merit, and this the new cataract cure certainly possesses in a marked degree.

Physicians, who formerly depended upon inhalers, sprays and local washes or ointments now use Stuart's Cataract Tablets because, as one of the most prominent stated, these tablets contain in pleasant, convenient form all the really efficient cataract remedies, such as sal. gum, Guaiacum, Eucalyptol, and Sassafras.

They contain no cocaine nor opiate, and are given to little children with entire safety and benefit.

Dr. J. L. Bellinger, of Covington, Ky., says: "I suffered from cataract in my head and throat every fall, with stoppage of the nose and irritation in the throat affecting my voice and often extending to the stomach, causing a catarth of the stomach. I bought a fifty-cent package of Stuart's Cataract Tablets at my druggist's, carried them in my pocket and used them faithfully, and the way in which they cleared my head and throat was certainly remarkable. I had no catarth last winter and spring and consider myself entirely free from any catarth trouble."

Mrs. Jerome Ellison, of Wheeling, W. Va., writes: "I suffered from catarth nearly my whole life and last winter my two children also suffered from catarth colds and sore throat so much they were out of school a large portion of the winter. My brother who was cured of catarth deafness by using Stuart's Cataract Tablets urged me to try them so much that I did so and am truly thankful for what they have done for myself and my children. I always keep a box of the tablets in the house and at the first appearance of a cold or sore throat we nip it in the bud and catarth is no longer a household affliction with us."

Full sized packages of Stuart's Cataract Tablets are sold for fifty cents at all druggists.

# WHY ALL GOOD CITIZENS SHOULD VOTE FOR WM. M'KINLEY ON TUESDAY.

\*\*\*\*\*

The campaign of 1900 is virtually over. Next Tuesday will bring to a close a contest that is destined to be memorable in the annals of political history. This year all the elements of social disorder and unsound economics that flocked to the Bryan standard in 1896 have been reinforced by a certain empirical theorists on the abstract question of human rights and the superb organization of a powerful and corrupt boss system in New York City; nevertheless the outcome is less doubtful than it was four years ago.

It seems as certain as anything can be that has yet to transpire that William McKinley will be re-elected by a more emphatic majority than was given him at his first election. He has steadily grown in public estimation with every rung that he has climbed on the political ladder, and wise conservatism which has characterized his dealing with the new problems thrust into our politics by the Spanish war has accentuated the faith reposed in him by the thoughtful and substantial elements of society. He possesses in a rare degree that unshakable confidence that is given to the executive who never loses his head nor his grip on a situation.

With the barely possible exception of Indiana Bryan has no chance of carrying a State north of the Ohio and Potomac rivers. Granting him Indiana his defeat is inevitable. Of the States west of the Mississippi River that he carried in 1896 he will undoubtedly lose Kansas, South Dakota and Washington. The Democratic managers do not even claim them. South of the Ohio, McKinley is certain of West Virginia and has an even chance in Kentucky. With a fair count he could safely count on the Blue Grass State. As it is, the betting in Louisville and Cincinnati is even money on the Republican electors and \$100 to \$200 that the Republican candidate for Governor will be elected.

But if Bryan be conceded both Kentucky and Indiana his total vote in the Electoral College cannot be at the utmost more than 185 which is 40 less than the number required to elect. The 26 votes of New York could not elect him, and the betting on the Stock Exchange is five and six to one that McKinley will carry the State, with practically no takers on the short end. Betting proves nothing, but it shows which way the wind blows.

This is the situation at the close of the campaign. It is an auspicious one for the welfare of the country, and is a further vindication of the ability of a free people to govern themselves soberly, wisely and happily. It demonstrates anew that the ballot box can always be relied upon to guide the Nation safely through every crisis.

Here in California the result is so clearly outlined that the ballot-box next Tuesday is a mere matter of form. The indications point to an overwhelming majority for the National ticket and the return of a solid Republican delegation to Congress. With the lessons of the past and the conditions of the present before us no Republican should fail to vote for the Republican Congressional nominees. The victory for good government and sound money is only half won if the President is compelled to deal with a hostile and obstructive Congress.

**Town Talk.**

The contents of Town Talk today include sauntering paragraphs on Lord Fairfax and his California home; some 'scholarship' who are chiefs, and the breakfast they gave; the Carletons in Chicago; the Comstock gold mine; the start in life; political futures; Mary Fraser and her release; a spectacular diplomat, etc. The editorial in the 11th ruble Bank is interesting and in the English of the 'Optical' part are news. Two new items are a sketch, a statistic or town life, and the latest automobile news. A new 'The Story of Carmen' makes entertaining literary reading.

never was attempted to change the statute books of any of our States. A provision in the Imperial edict is given to the President of the United States to enforce the laws of the States for the express purpose of expected to be business men, and to give the offending party the right to be heard. The President brings the charges, and he renders the decision. It is not a monarchism if that is not in fact. It is not centralization run rampant. It is not this country or any other where if you can find any fault with it, you can find it within it. It is not a monarchism. It would be a moment a statute which assumes so flagrantly a monarchism that it is to pass upon the guilt of a man or set of men, without any right to be heard, only in the infernal realm to determine a cause without a trial. It is the proposition that the Imperial President at the attitude of the Democrats with reference to the control of the Government. The President proposed by the Democrats voted upon in the House, and the vote was 150 to 150, which 150 were Republicans and 150 were Democrats. The resolution failed by the fact that the Democrats required upon a prepared amendment, and the result was a tie. It is not a monarchism, consistency, if you are not consistent.

I predict that at the coming National Republican Convention of William McKinley and that the country has been so long in the hands of the Democrats that they can be fooled into writing common Democratic, pro-Spanish resolutions. I don't know what Democrats will do by the next lot the free

"It must be a snap to be a candidate for president of the United States, enjoying so much distinction and being uppermost in the people's mind," said Mr. Shoe Clerk. "I wouldn't hold down McKimble's and Bryan's jobs for a \$400,000," retorted the Inspired Idiot. "The man with a grape seed in his vermillion appendix has more real rollicking fun in one week than McKimble and Bryan get out of this whole campaign," I often ponder, if I don't get sick of doing the Prince Albert act and emitting 18-ton thoughts on the spur of the moment. While both have to look pleasant and wear a smile as broad as a political platform, neither one of them is enjoyed a hearty laugh since his nomination.

"While they are always getting the enjoyed niff from everyone they meet, they know themselves that not one of them means it. They get lots of information, but it all on theilly value of the subject. First told who the person they tell then they are. If Jack honest's beliefs that he is going to be elected, and he

has a champion predictor on his staff to supply the necessary flattery to prove it. Constant application of superheated air to the drums of the ears is his happiest pastime. In the world, man gets tired of it after several months' treatment, and naturally jumps for somebody to come along and jolt him with a brain full of thought on the other side of the fork. It was some one called telling McKimble that the great one, the Clerk, was a little bit up from the ground, and you got up in the morning till you went to bed at night.

"Neither McKimble nor Bryan has sold a natural thing in six months, and neither one of them has worn a natural look in the night of time. They couldn't do it and be the greater for it. It is a game. One of the prerequisites of a statesman is his ability to wear an expression that could be used as the constitution of the United States if that document were destroyed. If you, sir, were to print this looking as if you could bite the fourth rate of punishment through a rail fence, somebody in an unguarded moment would take you for a stationer. Webster and Clay live dreamed of what they were jabbering on future generations when they invent it in the state man's face.

"When Bryan walks down to the corner butcher shop to get a pound and a half of meat steak the butcher shows him a cut and pronounces it a good steak. "All steak should be good," says Bryan right out loud, for from his government's decisions that meat is a steak which cannot be cut with an ax is a danger and menace to our free institutions. A republic in which every citizen is a sovereign, but in which no one cares to wear a crown, can never fall if the people get the right kind of steak. Bryan has to say this, because it is expected of him. If in didn't talk like a trader, or a politician, or a form of government, the Lutes would boost it around the neighborhood that the democr. Je candidate was a half-broiled lobster.

"McKimble goes to the grocery for a half pound of prunes and the grocery man says it is a nice say. 'It is' says the president. American citizenship is a priceless heritage bequeathed to us by the founders of our republic. As long as we should cherish this gift as a thing immortal. Our responsibilities to our country are great, for into our hands has been intrusted the perpetuity of our free institutions. These prunes which you are about to eat are an assurance that the issue of state citizenship with the American spirit is your besom. With this assertion of American citizenship in universal practice, the stability of our Government is forever safeguarded."

"Now just think of having to carry around a lot such harvestless notions as those in your head. And think what they have got to read to get such notions. It splits the kindlings. And McKimble is ready for McKimble to get the breakfast in the morning, he pulls off his boots, turns up the lamp and reads a few volumes. For a starter he takes that happy little old entitled The Purchase of Louisiana, or, How We Soaked the French. This is a thrilling romance and excites him to read a few chapters of The Treaty of Ghent. He thought the Spirit of Moral Reform, which he has been reading, was the fountain of the relative school, he of time over 18 million a first report as secretary of the treasury and then the honour report for 1870. Then he puts the cat out doors, winds the clock and goes to bed.

"In the meantime Bryan is doing a natural star. After milking the cow and bedding down his horses he goes into the house to while away an hour or two with some light reading. One of his favorite books is "The Descentemorphism of the Gospels by Synchism." Another book in which he takes great interest is "The Story of a Rubberneck, Being an Exposure of the Theory and Practice of Expansion. After reading the declaration of independence and the constitution backwards three times without taking a breath, the democratic candidate retires for the night.

"McKimble and Bryan are good men and it seems a shame that they should go on through life looking as if they were about to have the dirt roads mowed and talking long on the north of the power. I don't want to say it. If they had their way they would take in a 10-2-3, one is a little something a trifling lighter than a heavy report. When Mr. Bryan is a pleasure to some admiring nation, it is like the breaking up of a hard water, when McKimble is a piece of a joke it is like the back of a seat of a falling of the shelves. It isn't because they are without wit, for both have a keen sense of humor. But they are common with a whole lot of people have the idea that solemnity is dignity. When a man is a simple have the feeling that a man sinks three times before he drowns.

"No, Mr. Shoe Clerk, it is not a easy job to be candidate for president of the United States. No job is easy when you have to look yourself in a sandy dove vault when you want to laugh, or when you say sounds like reading prof on a

**GUNTON'S MAGAZINE.**  
Gunton's Magazine for October is a notably good number of this excellent publication. The leading article is "The Coming Regeneration of China," by John Henry Barrows, who takes an optimistic view of the great developments now occurring in the world's foremost statesmen. Other interesting articles are "Ship Subsidies and Bounties," by Alexander H. Smith; "Mansfield and Henry V.," by N. D. Hanna; and "Trusts and Monopolies," by the editor. Published by the Gunton Company, Union Square, New York.
